EDUCATION

Colgate University, Hamilton, NY | *Bachelor of Arts* **2023-2027**

- Major: Applied Mathematics; Minor: Biology
- Extracurriculars: Biostatistics Tutor (2025) & Club Volleyball Captain (2023-Present)
- Related Coursework: Investigations in Computational Biology (MATH/BIOL 481), Biostatistics (BIOL 320), Numerical Analysis (MATH 376), Data Analysis I & II (MATH 354 & 454), Probability (MATH 316)
- Study Abroad (Spring 2026): University College Cork (Ireland)

Programming Languages & Software

R, MATLAB, Python, L^AT_EX

EXPERIENCE

Ionia County Health Department

Community Needs Assessment Intern

May - August 2026

- Prepared professional report on health, demographic, and socioeconomic factors in Ionia County, MI based on publicly available data
- Worked under supervision of County Health Director Dr. Haleigh Leslie to aid in Community Health Needs Assessment

Dr. Bineyam Taye Epidemiology Lab

Computational Lab Researcher

Colgate University

Feb 2024 - Present

- Researched effects of socioeconomic and environmental factors on the gut microbiome of Ethiopian school children using statistical analysis in R; Transformed and personalized existing lab techniques
- Presented a [poster](#) in the spring of 2025 with other biology students; manuscript in-progress

Colgate Data Science Collaboratory

Data Science Intern

Colgate University

Sep 2024 - Jul 2025

- Programmed and developed [website](#) for the Colgate Data Science Collaboratory using RShiny under Dr. William Cipolli
- Performed mixed effect regression analysis for study on aging and metabolism in dogs for Dr. Ana Jimenez; presented [poster](#) for the summer

Dr. Melissa St. Hilaire Data Science Lab

Biostatistics Researcher

Merrimack College

Jun - Aug 2024

- Aided Dr. Melissa St. Hilaire of Merrimack College in ongoing mathematical biology and biostatistics human research
- Optimized human circadian rhythm model in MATLAB
- Cleaned and analyze human biological data pertaining menstrual cycle, sleep, and attention using R
